SUBJ: "Savings Education" Web Page

The Office of Personnel Management (OPM) has created a "Savings Education" web page as part of the Administration initiatives to highlight the benefits of personal financial planning and the steps that all Americans can take to make financial planning easier. The web page is designed to provide resources to HR benefits staff to use in savings education programs and to provide self-service information for employees. The page features information and tools as well as links to other sources of information.

The Savings Education web page is located on OPM's web site at www.opm.gov/benefits/savings/index.htm. Facilities should share this site information with all employees.

Questions about this flyer should be directed to your geographic area contact within the Customer Advisory and Consulting Group.
